PROFESSIONAL EXPERIENCE

Software Developer (80%)

08.2024 - present

Interdiscount, Jegenstorf

- Built two-factor authentication for interdiscount.ch: four tested API routes and the account-security UI, plus exception handling in the SAP Commerce Java backend.
- Migrated the frontend to the new OAuth2 authorization server behind a feature toggle, reworking login, logout and session guards, and implemented device fingerprinting.
- Led the frontend workstream of the SAP Commerce JDK 21 upgrade, a seven-person effort across frontend, backend and infrastructure teams, with no login incidents.
- Promote the weekly release of three production frontends to Google Kubernetes Engine through ArgoCD.
- Authored 500+ and reviewed 630+ pull requests across three production applications.
- Write and maintain Playwright UI tests across the frontend applications.

Software Developer Apprentice

08.2020 - 07.2024

Interdiscount, Jegenstorf

- Passed the IPA final exam with 5.5: solo-built interdiscount.ch's product comparison feature and its tracking backend.
- Contributed to the multi-year React to Next.js migration of interdiscount.ch, working in both the legacy React 16 / Redux frontend and the new codebase.

SKILLS

Frontend: Next.js, React, TypeScript, Tailwind CSS, SWR, XState, JavaScript, HTML/CSS

Backend & Data: REST API, Java, Node.js, Express.js, MySQL, PostgreSQL

Testing & Quality: Playwright, Jest, ESLint, SonarCloud, Lighthouse

Tools & Delivery: Git, Docker, CI/CD, GCP, ArgoCD, Claude Code, Postman, Agile/SAFe

EDUCATION

Advanced Federal Diploma of Higher Education in IT

04.2026 - 2029 (part-time)

hftm

Computer Science Apprenticeship EFZ, Application Development

08.2020 - 07.2024

gibb Berufsfachschule Bern
